## Bodegas Trapiche

---

Quality, innovation and diversity have always been Trapiche's fundamental drivers, the basis on which it stands and moves forward. Trapiche is located in Mendoza at the foothills of Los Andes and is Argentina's largest exported premium brand, exporting its wines to more than 80 countries world wide.

Trapiche represents the richness of diversity in Argentina. Throughout its history, it has understood the strength of the viticulture in Argentina and it has specialized in obtaining the best from every site to create unique wines. This diversity is founded in more than 1,000 ha of its own vineyards and obtaining grapes from more than 200 independents producers in the best winegrowing areas of Argentina.
